

A VIEWPOINT FROM A CFAD ENDOWMENT

2011

Celebrating 10 Years

2021

Hi! My name is Perpetua the Endowment. I work at the Catholic Foundation in the Archdiocese of Dubuque, or CFAD for short. I'm told my work is very important in how I help my Catholic cause for which I was created. Here's what I'm told.

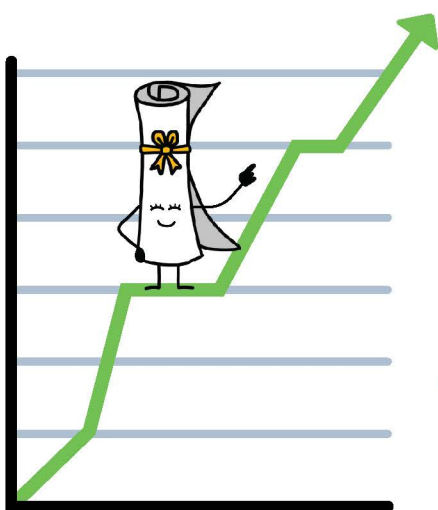

1 After my donor created me, I went right to work in the "investment" world. I like the investments I work with — they are respectful of our Catholic values.

2

Over time, I make some good earnings. While it varies each year, over the long run, I grow so that what I'm able to do today will be similar to what I need to do in the future.

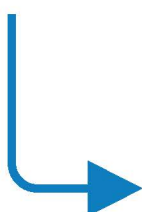

3

And because I grow, I can give more of me in the future. This is important because things will cost more in the future due to the fact that prices of items tend to rise.

And what is it I do? My purpose is to give back part of me each year — forever! I get to help my Catholic cause until Jesus comes again. How amazing is that? I just love that.

4

5

My Catholic cause loves that too! It knows I will give to it every year. It helps them stay steady so they can focus on their mission and serve God and His people.

My donor loves it for all these reasons and knows the Catholic legacy created will continue on.

6

This all happens because my donor who created me knows that what we have are gifts from God to be used and shared smartly. My donor is awesome and will impact our Catholic faith forever!
